

JEL CLAWS

The Ultimate In Scale
Racing Tires

Tires available to fit any scale including 1/24, 1/32, 1/43, 1/64

HIGHEST QUALITY ENGINEERING

JEL CLAWS tires are made with the highest degree of precision and the finest quality materials. We use computer guided CNC machining for mold making, specially formulated premium rubber compounds and proprietary processes developed for manufacturing.

- Jel Claws absorbs bumps and vibrations unlike other brands that actually multiply them
- Jel Claws are the roundest, flattest, most accurate tires available
- Jel Claws will not rip or tear during installation like silicone or cheap rubber compounds

AMAZINGLY REALISTIC

- Jel Claws have nicely rounded sidewalls
- Attention-to-detail is built into every tire at every scale to make your car its most realistic
- Jel Claws makes and will make tires for all slot cars with an ever growing line

Jel Claws will not rip or tear during installation like silicone, or low quality rubber compounds

ASTOUNDING PERFORMANCE

Our special JEL CLAWS tire compounds are formulated to be the best gripping tires ever. The competition's silicone tires can leave a slick residue on track surfaces that degrades performance. JEL CLAWS grab the track and don't let go until the checkered flag!

You will see: JEL CLAWS will decrease your lap times over any other brand of slot car tire, and reduce de-slotting at all speeds

- Jel Claws will not deposit slippery silicone oils or other slippery contaminants on your track
- Jel Claws work better on rough Ninco tracks that chew up silicone tires
- Jel Claws will decrease your lap time!
- Jel Claws reduce de-slotting at all speeds!
