

ULTRACAL

Advanced High Def Racing Decals

Finally, a better decal... **ULTRACAL**

Features

- Fits around all body details, contours, seams
- Finally, vivid whites in a decal that looks authentic
- Applies to irregular surfaces perfectly
- Will not chip, scratch, tear or wrinkle
- No need for clearcoating - already has a look of a clearcoated decal
- Graphics look sharper, more crisp than other decals
- More vivid colors and backgrounds, with a painted look
- Looks and feels like factory fitted, tampo printed numbers
- New micro thin, space age poly material

Installation Instructions

1. Wash and dry hands thoroughly
2. Clean and dry surface of car with mild soap and water
3. Carefully lift and edge of the decal by bending the backing and lift using fingers, tweezers or the tip of an Xacto knife
4. Align decal on desired location, and place one edge on side of the car body (don't let go unless you are satisfied with the position of the decal)
5. Gently press into position
6. Enjoy your new UltraCal decal for years!

Have a unique idea for graphics? We would enjoy hearing from you!
